Information Disclosure Statement

The information disclosure statement (IDS) submitted on May 11, 2006 was filed after the mailing date of the non-final Office action on December 14, 2005. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 12-31 are allowable over prior art and renumbered to claims 1-20.

Japanese patent JP 08-113514 teaches an oil-in-water emulsion comprising treated boron nitride having particle size of 0.005-5 microns and 1.5 % of emulsifiers (0.5 % of polyoxyethylene monooleic acid sorbitan; 0.5 % of oleic acid sorbitan, 0.5 % of cetanol). See English translation, [0055]. While this specific formulation comprises a relatively low amount of surfactants, there is no teaching, suggestion, or motivation for a skilled artisan found in the reference to further reduce the amount of surfactants to 0.5 % or below and still expect to obtain a stable Pickering emulsion of the claimed invention. Thus, examiner takes the position that the claimed composition is nonobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
